MOIAT FORMULA BREAKDOWN

COMPONENT	WEIGHT	CONTRIBUTION

Emiratisation (Nafis)	15%	Met
Expat contribution	10%	Tracked

How ICV works: the score is computed from audited financials under the MOIAT formula and is **certified once a year** — it then sits frozen on the certificate until you recertify. In Abu Dhabi, ICV is worth up to **40% of the financial evaluation**, and a bid with no valid certificate scores zero.

This certificate is issued under the National ICV Programme administered by MOIAT.
Certifier reference: Deloitte ICV engagement DT-ICV-24-73118.
